### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The closest prior art is that of WO 99/18896 A1 (hereinafter referred to as "Watts"), a publication belonging to the instant inventor. Watts discloses an ankle-foot orthosis comprising a resilient, flexible sock-like structure (34) having a L-shape and a resilient rib (56), which may be formed integrally with orthosis or removably insertable into a pocket provided on the dorsal aspect of the foot.

Watts fails to teach or fairly suggest to one having ordinary skill in the art, an ankle-foot orthosis for resisting plantarflexion of a patient's foot, comprising a flexible rib of silicone elastomer, at least a portion of an external surface of a defined region of the compression stocking, said defined region being substantially aligned with at least a portion of the dorsum of the patient's foot when said orthosis is in use, being impregnated with said silicone rib to bond said rib to said defined region of the compression stocking, such that said rib overlies at least a portion of the dorsum of the patient's foot when said orthosis is in use and has a resilience that is appropriate for resisting the particular degree of plantarflexion experienced by the patient, in combination with the other recited elements of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kim M. Lewis whose telephone number is (571) 272-4796. The examiner can normally be reached on Monday to Wednesday, from 5:30 am to 4:00 pm.
